

Global Tech 2000 – Promote Your Web Site Promotion Guarantee

Here's our GUARANTEE:

As a result of purchasing our **Premium Services**, your web site will achieve the minimum goal of having at least 10 pages rank within the top 20 positions, anywhere across the top 27 search engines. The top twenty seven search engines are: Google, Yahoo, Excite, Lycos, iWon, MSN, AOL, AltaVista, Go.com, Splat Search, HotBot, PC Beacon, Looksmart, NBCi, Netscape Netfind, Direct Hit, All the Web, Webcrawler, Magellan, Overture, Ah-ha, Inktomi, Teoma, Wise Nut, Northern Light, Open Directory Project and Scrub the Web.

Your site will achieve this minimum goal within 120 days of our completed submittal of your site to the top 27 search engines. If, for some reason your site does not reach the minimum goal of 10 top 20 positions at least once within 120 days of our completed submittal of your site to the top 27 search engines, we will continue submitting your site until we far surpass the 10 top 20 rankings we guaranteed or refund your purchase price.

Once the 120 days have passed and/or we have at least once achieved our minimum guarantee of at least 10 top 20 positions across the top twenty seven search engines, any potential drop down to the guaranteed level, will result in the immediate promotion of the site again to increase the rankings. The site will be promoted every 6 weeks or more often if necessary to maintain the minimum guarantee.
